SUMMARY SECTION

The Fund's Investment Objective

The Aegis Value Fund (the "Fund") seeks long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

	<u>Class I</u>
Shareholder Fees (fees paid directly from your investment)	None
 Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)	
Management Fees	1.20%
Distribution and Service (12b-1) Fees	None
Other Expenses	<u>0.25%</u>
Total Annual Fund Operating Expenses	1.45%

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. You may be required to pay commissions and/or other forms of compensation to a broker on your purchases and sales of Class I shares of the Fund, which are not reflected in this table. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<u>1 Year</u>	<u>3 Years</u>	<u>5 Years</u>	<u>10 Years</u>
Class I	\$148	\$459	\$792	\$1,735

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating

Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year ended December 31, 2024, the Fund's portfolio turnover rate was 9% of the average value of its portfolio.

The Fund's Principal Investment Strategies

The Fund invests primarily in common stocks that the Advisor believes are significantly undervalued relative to the market based on fundamental accounting measures including book value (assets less liabilities), revenues, or cash flow. This strategy is commonly known as a "deep value" investment strategy. The Fund may invest in securities issued by companies of any market capitalization, including small- and mid-capitalization companies. The Fund considers a small-capitalization company to be a company with a market capitalization (the value of all outstanding stock) of less than \$1 billion at the time of investment. The Fund has no percentage allocation for investments in small- or mid-capitalization companies, and the Fund may invest up to 100% of its portfolio in the securities of these companies. The Fund may also invest in the securities of foreign companies. The Advisor may hold a significant portion of the Fund's portfolio in cash or cash equivalent instruments. If market conditions reduce the availability of securities with acceptable valuations, the Fund may, for extended periods, hold larger than usual cash reserves until securities with acceptable valuations become available. From time to time, the Fund may have significant amounts invested in securities of companies in the same economic sector. As of December 31, 2024, 49.6% and 32.2% of the Fund's total investments were invested in the Materials and Energy sectors, respectively.

The Fund may, from time to time, take temporary defensive positions in response to adverse market, economic, political or other conditions. To the extent the assets of the Fund are invested in temporary defensive positions, the Fund may not achieve its investment objective. For temporary defensive purposes, the Fund may invest in cash and/or short-term obligations.

Principal Risks of Investing in the Fund

Securities held by the Fund will fluctuate in price. The value of your investment in the Fund will go up and down. This means that you could lose money over short or extended periods of time. Before investing in this Fund, you should carefully consider all risks of investing in the Fund, including investing in: securities in general, "deep value" securities, securities of smaller companies, securities of foreign companies and securities of companies within the same sector. A summary of the principal risks of investing in the Fund is provided below. Also, for additional information, please refer to the section of the Prospectus titled "Additional Information About the Investment Strategies and Risks of the Fund."

- **Equity Investment Risk.** To the extent the Fund invests in common stocks and other equity securities, it may be subject to the risks of changing economic, stock market, industry and company conditions. Equity security prices can fluctuate over a wide range in the shorter term or over extended periods of time.

In addition, the interests of equity holders are typically subordinated to the interests of creditors and other senior shareholders. Markets may, in response to governmental actions or intervention, economic or market developments, or other external factors, including global health crises, tariffs and trading disruptions, natural disasters and regional and global conflicts, experience periods of high volatility and reduced liquidity. During those periods, the Fund may experience high levels of shareholder redemptions, and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities may be difficult to value during such periods.

- **Risks of Value-Oriented Investment Strategies.** The Advisor follows an investing style that favors value investments. Historically, value investments have performed best during periods of economic recovery. Therefore, the value investing style may over time go in and out of favor. At times when the value investing style is out of favor, the Fund may underperform other funds that use different investing styles. Investors should be prepared to tolerate volatility in Fund returns.
- **Risks of Investing in Small- and Mid-Capitalization Companies.** The Fund's purchases of securities of small- and mid-capitalization companies bring specific risks. Historically, these small- and mid-capitalization securities have been more volatile in price than larger company securities, especially in the shorter term. Small- and mid-capitalization companies may not be well-known to the investing public and may not have significant institutional ownership or analyst coverage. These and other factors may contribute to higher volatility in prices.
- **Risks of Investing in Foreign Securities.** To the extent the Fund holds foreign securities, whether or not such securities are denominated in U.S. dollars, the Fund will be subject to special risks. These risks will include greater volatility, investments that are more difficult to trade or dispose of than similar U.S. securities, and adverse political or economic developments resulting from sanctions, tariffs, trade wars, global or regional conflicts and political, international or military crises. The value of the Fund's investments in securities of foreign issuers, measured in U.S. dollars, will increase or decrease as a result of changes in currency exchange rates.
- **Risks of Investing in a Managed Fund.** The investment decisions of the Advisor may cause the Fund to underperform other investments or benchmark indices.
- **Risks of Investing in a Particular Sector.** Securities of companies in the same or related businesses, if comprising a significant portion of the Fund's portfolio, could react in some circumstances negatively to market conditions, interest

rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such businesses comprised a lesser portion of the Fund's portfolio.

- o **Energy Risk.** Energy companies may be negatively affected by natural disasters, the high investment costs of exploration and other long-term projects, maintenance costs (and risks of obsolescence) associated with significant fixed assets, commodity prices, government regulations, and conservation efforts, among other factors.
- o **Materials Risk.** The Materials sector includes companies that manufacture chemicals, construction materials, glass, paper, forest products and related packaging products, and metals, minerals and mining companies, including producers of steel. The Fund is subject to the risk that the securities of such issuers will underperform the market as a whole due to legislative or regulatory changes, adverse market conditions and/or increased competition. The prices of the securities of companies operating in the Materials sector may fluctuate widely due to the level and volatility of commodity prices, the exchange value of the U.S. dollar, import controls, worldwide competition, liability for environmental damage, depletion of resources, and mandated expenditures for safety and pollution control devices. Production of materials may exceed demand as a result of market imbalances or economic downturns, leading to poor investment returns.
- **Cash Position Risk.** To the extent that the Fund holds assets in cash, cash equivalents, and other short-term investments, the ability of the Fund to meet objective may be limited.

As with all mutual funds, there is the risk that you could lose all or a portion of your investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Fund Performance

The following bar chart and table provide some indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and how the Fund's average annual returns for 1-year, 5-years and 10-years compare with those of a broad measure of market performance and a secondary benchmark that more closely reflects the types of securities in which the Fund invests.

The past performance of the Fund (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's results can be obtained on the Fund's website at www.aegisfunds.com or by calling 1-800-528-3780.

Annual Total Returns for the Year Ended December 31 – Class I*

During the period shown on the bar chart, the Fund's best and worst quarters were as follows:

Highest Quarterly Return **47.20%** **(2nd Quarter 2020)**
Lowest Quarterly Return **-38.70%** **(1st Quarter 2020)**

Average Annual Total Returns for the Period Ended December 31, 2024

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>
Class I:			
Return Before Taxes	9.43%	17.46%	13.51%
Return After Taxes on Distributions	7.70%	16.60%	12.81%
Return After Taxes on Distributions and Sale of Fund Shares	7.19%	14.09%	11.18%
S&P 500 Total Return Index*			
(index reflects no deduction for fees, expenses, or taxes)	25.02%	14.53%	13.10%
S&P SmallCap 600 Pure Value Index*			
(index reflects no deduction for fees, expenses, or taxes)	5.55%	11.34%	7.32%

* Effective December 31, 2024, the primary broad-based index used for comparison with the Fund's performance changed from the S&P SmallCap 600 Pure Value Index to the S&P 500 Total Return Index to comply with new regulations that require the Fund's primary benchmark to reflect the overall market in which the Fund may invest. The Fund's previous primary benchmark, the S&P SmallCap 600 Pure Value Index, which more closely reflects the types of securities in which the Fund invests, is the Fund's secondary benchmark.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown. Furthermore, the after-tax returns are not relevant to those who hold their Fund shares through tax-deferred arrangements such as 401(k) plans or Individual Retirement Accounts (“IRAs”). All Fund performance data assumes reinvestment of dividends and capital gain distributions.

Management

Investment Advisor

Aegis Financial Corporation is the investment adviser to the Fund.

Portfolio Manager

Scott L. Barbee, Managing Director of Aegis Financial Corporation, is the portfolio manager of the Fund and has served in that capacity since its inception in 1998.

Purchase and Sale of Fund Shares

The minimum initial investment for Class I shares is \$10,000 for non-IRAs and \$5,000 for IRAs.

The minimum subsequent purchase amount for Class I shares is \$250 unless the purchase is made in connection with the Automatic Investment Plan, in which case you can make monthly or quarterly investments of \$100 or more.

You may purchase or redeem shares of the Fund on any day that the New York Stock Exchange (“NYSE”) is open for trading, subject to certain restrictions. Purchases and redemptions may be made by mailing an application or redemption request to Aegis Value Fund, c/o U.S. Bank Global Fund Services, P.O. Box 219252, Kansas City, MO 64121-9252, by wire, or by calling 1-800-528-3780. Subsequent purchases and redemptions may be made by visiting the Fund’s website at www.aegisfunds.com. Investors who wish to purchase or redeem shares through a broker-dealer or other financial intermediary should contact the intermediary regarding the hours during which orders to purchase or redeem shares of the Fund may be placed.

Dividends, Capital Gains and Taxes

The Fund’s distributions are taxable and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT THE INVESTMENT STRATEGIES AND RISKS OF THE FUND

Unless otherwise stated, all investment strategies (including the investment objective) and limitations of the Fund are non-fundamental and may be changed by the Board of Trustees (the “Board”) without shareholder approval upon at least 60 days’ prior written notice to shareholders. The fundamental investment policies of the Fund are set forth in the Fund’s Statement of Additional Information (“SAI”). The fundamental policies cannot be changed without shareholder approval. For more information, please refer to the SAI.

The Fund may invest in the securities of foreign companies and in convertible securities, which are bonds, debentures, notes, preferred stocks or other securities that may be converted into or exchanged for a prescribed amount of equity securities (generally common stock) of the same or a different issuer within a particular period of time at a specified price or formula. The Fund may lend portfolio securities to brokers, dealers and financial institutions to the extent permitted under the Investment Company Act of 1940, as amended (“1940 Act”), and the rules, regulations and interpretations thereunder.

Cash Reserves. The Advisor may hold a significant portion of the Fund’s portfolio in cash or cash equivalent securities. If market conditions reduce the availability of securities with acceptable valuations, the Fund may, for extended periods, hold larger than usual cash reserves until securities with acceptable valuations become available. As a result, the Fund may not achieve its investment objectives during such periods. Holding larger than usual cash reserves can penalize short-term performance in rising markets, but during market declines cash reserves may allow the Fund to purchase securities at discounted prices.

Temporary Defensive Investments. The Fund may, from time to time, take a temporary defensive position by holding cash or by investing in money market funds, repurchase agreements on government securities and other cash equivalents when the securities markets are experiencing excessive volatility or a prolonged general decline, or when other adverse conditions exist. During these circumstances, the Fund may be unable to pursue its investment objectives. The Fund’s defensive investment position may not be effective in protecting its value.

Who Might Want to Invest? The Fund may be an appropriate investment for investors seeking diversified participation in “deep value” investments. Investors in the Fund should be seeking long-term capital appreciation. Shares of the Fund can be purchased through both non-retirement accounts and retirement accounts. Investors should be comfortable with the higher company-specific risks associated with “deep value” investments. In addition, the Fund’s investment in the securities of small- and mid-capitalization companies may result in higher price volatility versus mutual funds that limit their investments to the securities of larger companies. Therefore, the Fund is

most suitable for long-term investors who are willing to hold their shares for extended periods of time through market fluctuations and the accompanying changes in share prices.

Risk Factors

As with all mutual funds, there is the risk that you could lose all or a portion of your investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. There is no assurance that the Fund will achieve its investment objective, and an investment in the Fund is not by itself a complete or balanced investment program. The following provides additional information about the risks that could affect the value of your investment:

Equity Investment Risk. To the extent the Fund invests in common stocks and other equity securities, it may be subject to the risks of changing economic, stock market, industry and company conditions, currency exchange rates and the risks inherent in management's ability to anticipate any changes that can adversely affect the value of the Fund's common stock holdings. Equity security prices can fluctuate over a wide range in the shorter term or over extended periods of time. In addition, the interests of equity holders are typically subordinated to the interests of creditors and other senior shareholders. Markets may, in response to governmental actions or intervention, economic or market developments, or other external factors, including global health crises, natural disasters, tariffs and trading disruptions, supply chain disruptions, and regional and global conflicts, experience periods of high volatility and reduced liquidity. During those periods, the Fund may experience high levels of shareholder redemptions, and may have to sell securities at times when the Fund would otherwise not do so, potentially at unfavorable prices. Certain securities, particularly fixed income securities, may be difficult to value during such periods.

Risks of Value-Oriented Investment Strategies. The Advisor follows an investing style that favors value investments. Historically, value investments have performed best during periods of economic recovery. Therefore, the value investing style may over time go in and out of favor. At times when the value investing style is out of favor, the Fund may underperform other funds that use different investing styles. Investors should be prepared to tolerate volatility in Fund returns.

Risks of Investing in Small- and Mid-Capitalization Companies. Small- and mid-capitalization companies sometimes have limitations in the diversification of product lines, management depth, financial resources and market share. Therefore, these companies can be more vulnerable to adverse business or economic developments, and as a result their securities may involve considerably more risk than securities of larger and more seasoned companies.

The purchase and sale of small- and mid-capitalization company securities may have a greater impact on market prices than would be the case with larger capitalization stocks. In addition, these securities may have lower trading volumes and wider market

spreads between bid and ask prices than the shares of larger companies. Therefore, the cost of trading large amounts of these securities may be relatively higher than the cost of trading large amounts of large company securities.

Risks of Investing in a Managed Fund. Performance of individual securities can vary widely. The investment decisions of the Advisor may cause the Fund to underperform benchmark indexes. The Fund may also underperform other mutual funds with similar investment strategies. The Advisor may be incorrect in an assessment of a particular industry or company, or the Advisor may not buy chosen securities at the lowest possible prices or sell securities at the highest possible prices.

Risks of Investing in Foreign Securities. The risks of foreign markets and investing in foreign securities include currency fluctuations, possible nationalization or expropriation of assets, extraordinary taxation or exchange controls, imposition of sanctions, tariffs, political or social instability, global and regional conflicts, public health crises, such as pandemics, epidemics and other similar circumstances in one or more countries or regions, unfavorable diplomatic developments, and certain custody and settlement risks. In addition to these risks, many foreign markets have less trading volume and less liquidity than the U.S. markets, and therefore prices in foreign markets can be highly volatile. Foreign markets may also have less protection for investors than the U.S. markets. The imposition of, or an increase in, tariffs or trade restrictions between the U.S. and foreign countries, or even the threat of such developments, could lead to a significant reduction in international trade, which could have a negative impact on the economies of the U.S. and foreign countries. Foreign issuers may be subject to less government supervision. It may also be difficult to enforce legal and shareholder rights in foreign countries. There is no assurance that the Fund will be able to anticipate these risks or counter their effects.

Foreign investments may also involve risks associated with the level of currency exchange rates, less complete or reliable financial information about the issuers, less market liquidity, more market volatility and political instability. Future political and economic developments, the possible imposition of withholding taxes on investment income, the possible seizure or nationalization of foreign holdings, the possible establishment of exchange controls or freezes on the convertibility of currency, or the adoption of other governmental restrictions might adversely affect an investment in foreign securities. Sanctions imposed by the U.S. or a foreign country may restrict the Fund's ability to purchase or sell foreign securities or may require the Fund to divest its holdings in foreign securities, which could adversely affect the value or liquidity of such holdings. Currency exchange rates may fluctuate significantly, causing the Fund's net asset value ("NAV") to fluctuate as well. A decline in the value of a foreign currency relative to the U.S. dollar will reduce the value of a foreign currency-denominated security.

Risks of Investing in a Particular Sector. The Advisor's value investment strategy may, from time to time, result in the Fund investing significant amounts of its portfolio in securities of issuers principally engaged in the same or related businesses. Market conditions, interest rates and economic, regulatory or financial developments could

significantly affect a single business or a group of related businesses. Securities of companies in such business or businesses, if comprising a significant portion of the Fund's portfolio, could react in some circumstances negatively to these or other developments and adversely affect the value of the portfolio to a greater extent than if such business or businesses comprised a lesser portion of the Fund's portfolio. The imposition of sanctions or tariffs could also adversely affect global sectors, including financial, energy and metals & mining sectors, and thereby negatively affect the value of the Fund's investments beyond any direct exposure to the countries or regions subject to the sanctions.

- Energy companies may be negatively affected by natural disasters (such as earthquakes, wildfires or floods), the high investment costs of exploration and other long-term projects, maintenance costs (and risks of obsolescence) associated with significant fixed assets, commodity prices, government regulations, and conservation efforts, among other factors. Additionally, changes in the regulatory environment for the energy sector may adversely impact their profitability. Oil production and refining companies are subject to extensive federal, state and local environmental laws and regulations regarding air emissions and the disposal of hazardous materials. In addition, oil prices are generally subject to extreme volatility.
- The Materials sector includes companies that manufacture chemicals, construction materials, glass, paper, forest products and related packaging products, and metals, minerals and mining companies, including producers of steel. The Fund is subject to the risk that the securities of such issuers will underperform the market as a whole due to legislative or regulatory changes, adverse market conditions and/or increased competition. The prices of the securities of companies operating in the Materials sector may fluctuate widely due to the level and volatility of commodity prices, the exchange value of the U.S. dollar, import controls, worldwide competition, liability for environmental damage, depletion of resources, and mandated expenditures for safety and pollution control devices. Production of materials may exceed demand as a result of market imbalances or economic downturns, leading to poor investment returns.

Risks of Political, International, Military and Health Crises. From time to time, major political, international, military or health crises occur which could have a significant effect on economic conditions and the financial markets. In recent times, such events have caused the closure of or temporary trading halt of U.S. and other securities markets, triggered periods of very high financial market volatility, and have altered the future political, military and economic outlook on a global scale. Such crises and events, depending on their timing, location and scale, could severely impact the trading and operations of the Fund. The duration of such crises and events cannot be predicted. These events could also harm the value of the portfolio securities in the Fund and possibly harm the ability of the Advisor to operate the Fund, thereby increasing the potential of losses in the Fund.

Risks of Investing in Convertible Securities. Convertible securities have general characteristics similar to both fixed-income and equity securities. Yields for convertible securities tend to be lower than for non-convertible debt securities but higher than for common stocks. Although to a lesser extent than with fixed-income securities generally, the market value of convertible securities tends to decline as interest rates increase and, conversely, tends to increase as interest rates decline. In addition, because of the conversion feature, the market value of convertible securities tends to vary with fluctuations in the market value of the underlying security and therefore also will react to variations in the general market for equity securities and the operations of the issuer. While no securities investments are without risk, investments in convertible securities generally entail less risk than investments in common stock of the same issuer. Convertible securities generally are subordinated to other similar but non-convertible securities of the same issuer, although convertible bonds, as corporate debt obligations, enjoy seniority in right of payment to all equity securities, and convertible preferred stock is senior to common stock of the same issuer. However, because of the subordination feature, convertible bonds and convertible preferred stock typically have lower ratings than similar non-convertible securities.

Credit Risk. The risk that an issuer, counterparty or other obligor to the Fund will fail to pay its obligations to the Fund when they are due. If an investment's issuer, counterparty or other obligor fails to pay interest or otherwise fails to meet its obligations to the Fund, the value of the investment might be lost entirely. Financial strength and solvency of an issuer are the primary factors influencing credit risk. Actual or perceived changes in the financial condition of an obligor, changes in specific economic, social or political conditions that affect a particular type of security, other instrument or an obligor, and changes in economic, social or political conditions generally can increase the risk of default by an obligor, which can affect a security's or other instrument's credit quality or value and an obligor's ability to honor its obligations when due. The values of securities or instruments also may decline for a number of other reasons that relate directly to the obligor, such as management performance, financial leverage, reduced demand for the obligor's goods and services, as well as the historical and prospective earnings of the obligor and the value of its assets. Credit risk is heightened to the extent the Fund has fewer counterparties.

Cash Position Risk. The Advisor may hold a significant portion of the Fund's assets in cash, cash equivalents, or other short-term investments at any time or for an extended time. The Advisor will determine the amount of the Fund's assets to be held in cash or cash equivalents at its sole discretion, based on such factors as it may consider appropriate under the circumstances. To the extent that the Fund holds assets in cash or is otherwise uninvested, the Fund's ability to meet its objective may be limited.

Cyber Security Risk. Mutual funds, including the Fund, and their service providers, including the Advisor, are susceptible to cyber security risk. Cyber security incidents, both intentional and unintentional, may allow an unauthorized party to gain access to Fund assets, shareholder data, or propriety information, or cause the Fund, the Advisor and/or the Fund's service providers to suffer data breaches, data corruption or lose

operational functionality, or prevent Fund investors from purchasing or redeeming shares or receiving distributions. Cyber security incidents may result in financial losses to the Fund and its shareholders, and substantial costs may be incurred in seeking to prevent or minimize future cyber security incidents.

While measures have been developed that are designed to reduce the risks associated with cyber security incidents, there can be no assurance that those measures will be effective, particularly since the Fund does not control the cyber security defenses or plans of its service providers, financial intermediaries and companies with which those entities do business and companies in which the Fund invests.

Securities Lending Risk. There are certain risks associated with securities lending, including the risk that when lending portfolio securities, the securities may not be available to the Fund on a timely basis and the Fund may, therefore, lose the opportunity to sell the securities at a desirable price. When the Fund loans its portfolio securities, the Fund will receive collateral consisting of cash or cash equivalents, securities issued or guaranteed by the U.S. Government or one of its agencies or instrumentalities, an irrevocable bank letter of credit, or any combination thereof. Nevertheless, the Fund risks a delay in the recovery of the loaned securities, or even the loss of rights in the collateral deposited by the borrower if the borrower should fail financially. In addition, any investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, the Fund will have to cover the loss when repaying the collateral.

MANAGEMENT OF THE FUND

Investment Advisor. Aegis Financial Corporation, 6862 Elm Street, Suite 830, McLean, Virginia 22101, is the Fund's investment adviser. The Advisor, which has operated as a registered investment adviser since 1994, manages private account portfolios, and has served as the Fund's investment adviser since its inception on May 15, 1998. The Advisor provides investment advisory services and order placement facilities for the Fund.

At its own expense, the Advisor compensates certain financial institutions, including the Fund's distributor, for providing distribution and distribution-related services and/or for performing certain administrative/shareholder servicing functions for the benefit of the Fund's shareholders. These payments may create an incentive for such financial institutions to recommend the purchase of the Fund's shares.

Advisor Compensation. Pursuant to the Investment Advisory Agreement, the Fund pays the Advisor a fee to manage the Fund's portfolio. The Advisor receives an annual advisory fee from the Fund at a rate of 1.20% of the Fund's average daily net assets. The Advisor did not waive any fees during the fiscal year ended December 31, 2024.

A discussion summarizing the basis on which the Board renewed the Investment Advisory Agreement between the Fund and the Advisor is included in the Fund's Form N-CSR for the period ending June 30, 2024.

Portfolio Manager. Scott L. Barbee serves as the portfolio manager of the Fund. He is a Chartered Financial Analyst and a Managing Director of the Advisor, which he joined in 1997. Mr. Barbee has over twenty years of experience in the securities industry and has been portfolio manager of the Fund since 1998. Mr. Barbee graduated from Rice University in 1993 and received an MBA degree from the Wharton School at the University of Pennsylvania in 1997.

The SAI provides additional information about the portfolio manager's compensation arrangements, other accounts managed by the portfolio manager and the portfolio manager's ownership of shares of the Fund.

Fund Distributor. Quasar Distributors, LLC (the "Distributor"), Three Canal Plaza, Suite 100, Portland, ME 04101, serves as the distributor of the Fund's shares. The Distributor is registered as a broker-dealer under the Securities Exchange Act of 1934, as amended, and is a member of the Financial Industry Regulatory Authority, Inc. The offering of the Fund's shares is continuous. The Distributor may enter into arrangements with banks, broker-dealers or other financial institutions through which investors may purchase or redeem the Fund's shares.

Fund Transfer Agent and Administrator. U.S. Bank Global Fund Services, serves as the Fund's administrator, fund accountant, transfer agent and dividend disbursing agent (the "Transfer Agent").

Disclosure of Portfolio Holdings. A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the SAI, which is available without charge on the Fund's website at www.aegisfunds.com and by calling the Fund at 1-(800) 528-3780.

Further Information. More detailed information about the Fund, its investment policies, risks and management can be found in the SAI.

INVESTING IN THE FUND

Class I Shares

Class I shares of the Fund may be purchased as described in this Prospectus. Investors eligible to purchase Class I shares of the Fund may do so at the Fund's NAV without a sales charge. Class I shares may also be available on brokerage platforms of firms that have agreements with the Distributor to offer such shares solely when acting as an agent for the investor. An investor transacting in Class I shares in these programs may be required to pay a commission and/or other forms of compensation to the broker.

Class I shares may be offered through certain financial intermediaries that charge their customers transaction or other service fees with respect to their customers' investments in the Fund.

Before making an initial investment in Class I shares directly with the Fund, you should call the Fund at 1-800-528-3780 to determine if you are eligible to invest in Class I shares. The Fund will provide you with an application form and give you further instructions on how to invest. The Transfer Agent must have received your completed application before you may make an initial investment. If you intend to make an initial investment in Class I shares through your financial intermediary, you should contact your financial intermediary to confirm your eligibility to purchase Class I shares.

Certain financial intermediaries that make the Fund's shares available to its customers may charge fees in addition to those described in this Prospectus for providing certain services, including: marketing, distribution or other services intended to assist in the offer and sale of the Fund's shares; shareholder servicing activities; and/or sub-transfer agency services provided to individual shareholders or beneficial owners where a financial intermediary maintains omnibus accounts with the Transfer Agent. The Advisor, the Distributor or their affiliates may pay all or a portion of those fees out of their own resources. The compensation is discretionary and may be available only to selected selling and servicing agents. The amount of fees paid to a financial intermediary in any given year will vary and may be based on one or more factors, including a fixed amount, a fixed percentage rate, a financial intermediary's sales of the Fund's shares, assets in the Fund's shares held by the intermediary's customers or other factors. In addition, consistent with applicable regulations, the Advisor, the Distributor or their affiliates may from time to time pay for or make contributions to financial intermediaries or their employees in connection with various activities including: training and education seminars for financial intermediary employees, clients and potential clients; due diligence meetings regarding the Fund; recreational activities; gifts; and/or other non-cash items.

How to Purchase Shares

Shares of the Fund may be purchased directly from the Fund, or through an existing brokerage or other similar account held by the investor if the broker or intermediary has an arrangement with the Fund. The Fund reserves the right to reject any specific purchase order and to close the Fund to new or existing investors at any time. You may only purchase shares if the Fund is eligible for sale in your state or jurisdiction.

The minimum initial investment for Class I shares is \$10,000 for non-IRAs and \$5,000 for IRAs. The Fund may, in its sole discretion, accept purchase orders with less than the minimum investment.

The minimum subsequent purchase amount for Class I shares is \$250 unless the purchase is made in connection with the Automatic Investment Plan, in which case you can make monthly or quarterly investments of \$100 or more.

The Fund reserves the right to change the minimum amounts for initial and/or subsequent investments and may set different investment minimums for shares offered through financial intermediaries and waive the minimum investment requirements for employer-sponsored retirement plan accounts.

The price paid for shares of the Fund is the NAV next determined following the receipt of the purchase order in good order by the Transfer Agent or those financial intermediaries with arrangements with the Fund to offer the Fund's shares ("authorized intermediaries"). This is the offering price. "Good order" is defined as including all required account information and payment, or instructions for payment by wire or from a broker.

A purchase in "good order" must include the following:

- (1) The name of the Fund and the shareholder account number, if issued.
- (2) A completed account application or investment stub.
- (3) The amount of the transaction (specified in dollars or shares).
- (4) Signatures of all owners, exactly as they are registered on the account.
- (5) Other supporting legal documentation that may be required, in the case of trusts, corporations, associations, partnerships, estates, retirement plans and certain other accounts.

Purchase orders received by the Transfer Agent or authorized intermediaries prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) that day will be processed at that day's closing NAV. Purchase orders received after the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) will be processed at the next business day's closing NAV. Telephone trades must be received by or prior to market close. During periods of high market activity, shareholders may encounter higher than usual call waits. Please allow sufficient time to place your telephone transaction.

All shares (including reinvested dividends and distributions) are issued in full and fractional shares rounded to the third decimal place. All shares purchased will be held in book entry form by the investor's brokerage firm or by the Fund, as the case may be. Any transaction in an account, including reinvestment of dividends and distributions, will be confirmed in writing to the shareholder.

Calculation of Net Asset Value. The NAV of the Fund is calculated at the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) on each day the NYSE is open for business. The Fund's NAV is determined by dividing the total value of the Fund's assets (i.e., portfolio investments, cash, other assets and accrued income), less the Fund's liabilities (i.e., accrued expenses and other liabilities), by the number of outstanding shares of the Fund.

In determining the NAV, securities held by the Fund are valued based on market quotations, or if market quotations are not readily available or are unreliable, at their fair value as determined by the Advisor in good faith under procedures established and overseen by the Board. Pursuant to these procedures, the Advisor, as the Fund's "valuation designee" pursuant to Rule 2a-5 under the 1940 Act, is responsible for making all fair value determinations relating to the Fund's portfolio investments, subject to oversight by the Fund's Board.

Fair Value Pricing. The Fund from time to time invests in securities that are not actively traded. Securities for which market quotations are not readily available or are not reliable are carried at their fair value as determined in good faith by the Advisor, under policies approved by the Board. In accordance with Rule 2a-5, the Board has adopted specific procedures for valuing portfolio securities and delegated the responsibility of fair value determinations to the Advisor, as the Fund's valuation designee.

Fair value pricing may be used under circumstances that include, but are not limited to, the early closing of the exchange on which a security is traded or suspension of trading in the security. In addition, the Fund may use fair value pricing for securities traded in non-U.S. markets because, among other factors, foreign markets may be open on days or times when U.S. markets are closed and many foreign markets close before the Fund values its securities, normally at 4:00 p.m. Eastern time. The use of fair value pricing in these circumstances seeks to protect long-term Fund investors from certain short-term investors who may seek to take advantage of the Fund by exploiting discrepancies between a security's market quotations that may no longer be accurate, and the current fair value of that security.

When the Fund holds securities traded in foreign markets that close prior to U.S. markets, significant events, including company-specific developments or broad market moves, may affect the value of foreign securities held by the Fund. Consequently, the Fund's NAV may be affected during a period when shareholders are unable to purchase or redeem their shares in the Fund.

Purchasing Shares Through a Broker or Other Financial Intermediary. Some brokers and other financial intermediaries have arrangements with the Fund to offer the Fund's shares. These authorized intermediaries may charge transaction fees for purchases and sales of shares of the Fund. A commission may be charged by your financial intermediary with respect to the purchase of Class I shares made through such financial intermediary. Contact your authorized intermediary for additional information regarding availability of the Fund's shares and any fees it may charge for purchases of the Fund's shares. Your purchase order will be processed at the NAV next determined after receipt of your order in good order by the authorized intermediary. Purchase orders received by an authorized intermediary prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) that day will be processed at that day's closing NAV. See the definition of "good order" under the section "How to Purchase Shares" presented above.

Direct Investment — Opening an Account and Purchasing Shares

To purchase shares directly from the Fund, a New Account Application must be completed and signed. If you have any questions about the Fund or need assistance with your New Account Application, please call the Fund at 1-800-528-3780. Certain types of investors, such as trusts, corporations, associations, partnerships or estates, may be required to furnish additional documents when they open an account. These documents may include corporate resolutions, trusts, wills, partnership documents, trading authorizations, powers of attorney, or other documents.

Unless specified differently, accounts with two or more owners will be registered as joint tenants with rights of survivorship. To make any ownership change to a joint account, all owners must agree in writing, regardless of the law in your state.

Note: There are specific IRA Applications required for new IRAs, Roth IRAs and transfers of IRAs from other custodians. Please visit the Fund's website at www.aegisfunds.com or call the Fund at 1-800-528-3780 to obtain the correct IRA Application.

**IMPORTANT INFORMATION ABOUT
PROCEDURES FOR OPENING A NEW ACCOUNT**

In compliance with the USA PATRIOT Act of 2001, please note that the Transfer Agent will verify certain information on your New Account Application as part of the Fund's Anti-Money Laundering Program. As requested on the Application, you must supply your full name, date of birth, social security number and permanent street address. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. Mailing addresses containing only a P.O. Box will not be accepted. Please contact the Transfer Agent at 1-800-528-3780 if you need additional assistance when completing your New Account Application.

If the Fund does not have a reasonable belief of the identity of a customer, the account will be rejected or the customer will not be allowed to perform a transaction in the account until such information is received. In the rare event that the Transfer Agent is unable to verify your identity, the Fund reserves the right to redeem Fund Shares in your account at the current day's net asset value.

Initial Purchase – By Mail

To open an account at the Fund and purchase shares by mail, you must complete and return the appropriate Account Application with a check made payable to “Aegis Value Fund”. Account Application(s) and checks should be mailed to:

Regular Mail:

The Aegis Funds
c/o U.S. Bank Global Fund Services
P.O. Box 219252
Kansas City, MO 64121-9252

Overnight Mail:

The Aegis Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's office.

Initial Purchase – By Telephone

You may not make an initial purchase of Fund shares by telephone. Prior to conducting telephone transactions, you must provide the Fund with a completed New Account Application, a voided check or savings deposit slip and other information.

Initial Purchase – By Wire

To open an account by wire, a completed New Account Application is required before your wire can be accepted. You may mail or overnight deliver your New Account Application to the Transfer Agent. Upon receipt of your completed application, an account will be established for you. The account number assigned will be required as part of the instruction that should be provided to your bank to send the wire. Your bank must include the name of the Fund, the account number and your name so that monies can be applied correctly. Your bank should transmit funds by wire to:

U.S. Bank N.A.
777 East Wisconsin Avenue
ABA #: 075000022
Credit: U.S. Bancorp Fund Services, LLC
Account #: 112-952-137

Further credit:

Aegis Value Fund
Shareholder name and account number:

Wired funds must be received prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) to be eligible for same day pricing. The Fund and U.S. Bank N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Please note that the Fund is offered and sold only to persons residing in the United States and some U.S. territories.

Additional Information Regarding Direct Purchases

All checks must be in U.S. dollars drawn on a domestic bank. The Fund will not accept payment in cash or money orders. The Fund also does not accept any conditional order or payment. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares.

The Transfer Agent will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any payment that is returned. The Fund reserves the right to reject any application.

Only bank accounts held at domestic financial institutions that are Automated Clearing House (“ACH”) members can be used for telephone transactions. It takes at least 7 business days after receipt by the Fund of your bank account information to establish this feature. Purchases by ACH transfer may not be made during this time. You must have ACH instructions on your account in order to conduct online purchases.

Direct Investment – Purchasing Additional Shares

Subsequent Purchase – By Mail

Make your check payable to “Aegis Value Fund”, indicate your account number on the check and mail it to The Aegis Funds at the address set forth under “Direct Investment – Opening an Account and Purchasing Shares – Initial Purchase – By Mail.”

Subsequent Purchase – By Telephone

You are automatically granted telephone transaction privileges unless you decline them on your Account Application or by calling the Fund at 1-800-528-3780. If your account has been open for at least 7 business days, you may call the Fund at 1-800-528-3780 to purchase shares in an existing account. Investments made by electronic funds transfer must be from a pre-designated bank account and in amount of at least \$250 and not greater than \$100,000. If your order is received prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time), your order will be processed at the NAV calculated on the day your order is placed. Once you place a telephone transaction request, it cannot be canceled or modified after the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time).

The Fund and its agents will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. Such procedures may include, among others, requiring some form of personal identification prior to acting upon telephone instructions, providing written confirmation of all such transactions, and/or recording all telephone instructions. If reasonable procedures are followed, the Fund and its agents will not be liable for any loss, cost or expense for acting upon telephone instructions believed to be genuine or for any unauthorized telephone transactions.

Subsequent Purchase – By Internet

After your account is established, you may set a user ID and password by logging into www.aegisfunds.com. This will enable you to purchase shares by having the purchase amount deducted from your bank account by electronic funds transfer through the ACH network. Please ensure that your Fund account is set up with bank account instructions and that your bank is an ACH member. You must have provided a voided check or savings deposit slip with which to establish your bank account instructions in order to complete Internet transactions. For important information on this feature, see “Fund Transactions through the Fund’s Website” below.

Subsequent Purchase – By Wire

You may also wire money to U.S. Bank N.A. per the instructions set forth above under “Direct Investment – Opening an Account and Purchasing Shares – Initial Purchase – By Wire.” Prior to wiring money to purchase additional shares of the Fund, please contact the Transfer Agent to advise of your intent to wire and to ensure proper credit upon receipt.

Automatic Investment Plan

The Automatic Investment Plan allows you to purchase shares of the Fund through pre-authorized transfers of funds from your bank account. Your financial institution must be a member of the ACH network. Under the Automatic Investment Plan, you may make subsequent minimum purchases on a monthly or quarterly basis of \$100 or more. You can establish the Automatic Investment Plan for your account by completing the appropriate section of the Account Application. Any request to change or terminate your Automatic Investment Plan should be submitted to the Transfer Agent five calendar days prior to effective date.

How to Redeem Shares

As discussed below, you may receive proceeds of your redemption by check, ACH, or federal wire transfer. The Fund typically expects that it will take one to three days following the receipt of your redemption request in good order to pay redemption proceeds. However, while not expected, payment of redemption proceeds may take up to seven days if sending proceeds earlier could adversely affect the Fund. Additionally, payment of redemption proceeds for shares purchased directly by check or electronic funds transfer through the ACH network may be delayed until the purchase amount has cleared, which may be up to 15 calendar days from the date of purchase. This delay will not apply if you purchased your shares via federal wire transfer. If payment of proceeds is to be made by federal wire transfer, a \$15 wire fee will be applied. In unusual circumstances, the Fund may temporarily suspend redemptions, or postpone the payment of proceeds, as allowed by federal securities laws.

The Fund typically expects that it will hold cash or cash equivalents to meet redemption requests. The Fund may also use the proceeds from the sale of portfolio securities to meet redemption requests if consistent with the management of the Fund. These redemption methods will be used regularly and may also be used in unusual market conditions.

The Fund reserves the right to redeem in-kind as described under “Redemptions ‘In-Kind’” below. Redemptions in-kind are typically used to meet redemption requests that represent a large percentage of the Fund’s net assets in order to minimize the effect of large redemptions on the Fund and its remaining shareholders. Redemptions in-kind are typically only used in unusual market conditions but may also be used as a redemption method when requested by shareholders or advisors to shareholder accounts.

How to Redeem Shares through a Broker or Other Financial Intermediary

You may sell Fund shares held in a brokerage or other similar account by submitting a redemption request to your authorized intermediary. If you redeem Fund shares held in a brokerage or other similar account with an authorized intermediary, you should be aware that there may be a charge to you for such services. Redemption requests received by an authorized intermediary prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) that day will be processed at that day's closing NAV.

You may transfer your shares from the street or nominee name account of one broker-dealer to another, as long as both broker-dealers have arrangements with the Fund. The transfer will be processed after the Transfer Agent receives authorization in good order from your delivering securities dealer.

How to Redeem Shares from Direct Investment

You may redeem shares as described below on any day the Fund is open for business. Shares will be redeemed at the next determined NAV after the Transfer Agent receives the redemption request in good order. Redemption requests received by the Transfer Agent prior to the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time) that day will be processed at that day's closing NAV. Redemption requests received after the close of regular trading on the NYSE will be processed at the closing NAV for the following business day.

Redemption – By Mail

To redeem shares of any amount from your Fund account, you may send a request in good order to the Fund at:

Regular Mail:

The Aegis Funds
c/o U.S. Bank Global Fund Services
P.O. Box 219252
Kansas City, MO 64121-9252

Overnight Mail:

The Aegis Funds
c/o U.S. Bank Global Fund Services
801 Pennsylvania Ave, Suite 219252
Kansas City, MO 64105-1307

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at the Transfer Agent's post office box, of purchase orders or redemption requests does not constitute receipt by the Transfer Agent of the Fund. Receipt of purchase orders or redemption requests is based on when the order is received at the Transfer Agent's office.

If made in writing, a redemption request in good order must include the following:

- (1) The name of the Fund and the shareholder account number.
- (2) The amount of the transaction (specified in dollars or shares).

- (3) Signatures (and, if applicable, signature guarantees as discussed below) of all owners, exactly as they are registered on the account.
- (4) Other supporting legal documentation that may be required, in the case of trusts, corporations, associations, partnerships, estates, retirement plans and certain other accounts.

A signature guarantee, from either a Medallion program member or a non-Medallion program member, is required in the following situations:

- If ownership is being changed on your account;
- When redemption proceeds are payable or sent to any person, address or bank account not on record;
- When a redemption is received by the Transfer Agent and the account address has changed within the last 15 calendar days; or
- For all redemptions in excess of \$100,000 from any shareholder account.

Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the NYSE Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). A notary public is not an acceptable signature guarantor.

In addition to the situations described above, the Fund and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation. The Fund reserves the right to waive any signature requirement at its discretion.

Redemption – By Telephone

You are automatically granted telephone transaction privileges unless you decline them on your Account Application. You may redeem Fund shares by calling 1-800-528-3780. Redemption proceeds will be mailed directly to you, sent by wire to your predetermined bank account, or electronically transferred to your pre-designated bank account. You may redeem as much as \$100,000 by telephone redemption. Unless you decline telephone privileges on your Account Application, as long as the Fund and its agents take reasonable measures to verify the order, you will be responsible for any fraudulent telephone order. The Fund does not accept IRA redemption requests by telephone. Once a telephone transaction has been placed, it cannot be canceled or modified after the close of regular trading on the NYSE (normally 4:00 p.m. Eastern time).

Redemption – By Internet

If your account is set up to perform online transactions you may redeem your Fund shares through the Fund’s website at www.aegisfunds.com. You may redeem up to \$100,000 per transaction. For important information on this feature, see “Fund Transactions through the Fund’s Website” below.

Additional Information Regarding Redemptions of Direct Investments

Non-financial transactions, including establishing or modifying certain services on an account, may require a signature guarantee, a signature verification from a Medallion program member or non-Medallion program member, or other acceptable form of authentication from a financial institution source.

If an account has more than one owner or authorized person, the Fund will accept telephone and Internet instructions from any one owner or authorized person.

If you have any questions about what is required for your redemption request, please call the Fund at 1-800-528-3780.

Systematic Withdrawal Plan

For non-IRAs that have a value of at least \$10,000 or IRAs where the shareholder is eligible for withdrawals, the Fund offers a Systematic Withdrawal Plan (“SWP”) whereby shareholders or their representatives may request a redemption in a specific dollar amount be sent to them each month, calendar quarter or annually. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start the SWP, your non-IRA must have a value of at least \$10,000, and the minimum amount that may be withdrawn is \$100 (there is no minimum account balance to start a SWP for IRAs, nor a minimum amount that may be withdrawn for IRAs). The SWP may be terminated or modified by the Fund at any time. Any request to change or terminate your SWP should be communicated in writing or by telephone to the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves a redemption of Fund shares and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the distributions credited to your account, the account ultimately may be depleted. Please call 1-800-528-3780 for additional information regarding the SWP and eligibility requirements.

ADDITIONAL INFORMATION REGARDING PURCHASES AND REDEMPTIONS

Policy on Foreign Shareholders

Shares of the Fund have not been registered for sale outside of the United States. To invest in the Fund, you must be a U.S. citizen, resident alien or a U.S. entity, you must have a U.S. tax identification (social security or employer identification) number and

you must reside in the United States and its territories or have a U.S. military address. The Fund reserves the right to refuse investments from shareholders or entities that must file a W-8 tax form. In the rare event that the Transfer Agent is unable to verify your identity, the Fund reserves the right to redeem Fund shares in your account at the current day's net asset value.

Fund Transactions through the Fund's Website

You may visit us online at www.aegisfunds.com, where you may establish online transaction privileges by enrolling on the website. In addition to checking your Fund account balance, you may purchase additional shares and redeem shares of the Fund through the website. You automatically have the ability to establish online transaction privileges unless you decline them on your Account Application or by calling 1-800-528-3780. You will be required to enter into a users' agreement through the website in order to enroll for these privileges. In order to conduct online transactions, you must have telephone transaction privileges. Purchase of shares online will occur via ACH, you must have ACH instructions on your account. Proceeds from an online redemption can be sent via check to the address of record or can be sent to you by wire or ACH to the previously established bank account.

Payment for purchases of shares through the website may be made only through an ACH debit of your bank account. Redemptions from accounts established through the website will be paid only to the bank account of record. Only bank accounts held at domestic financial institutions that are ACH members can be used for transactions through the Fund's website. The Fund imposes a maximum of \$100,000 on purchase and redemption transactions through the website. Transactions through the website are subject to the same minimums as other transaction methods.

You should be aware that the Internet is an unsecured, unstable, and unregulated environment. Your ability to use the website for transactions is dependent upon the Internet and equipment, software and systems provided by various vendors and third parties. While the Fund and its service providers have established certain security procedures, they cannot assure you that inquiries, account information or trading activity will be completely secure. There may also be delays, malfunctions or other inconveniences generally associated with this medium. There may also be times when the website is unavailable for Fund transactions or other purposes. Should this happen, you should consider purchasing or redeeming shares by another method. Neither the Fund, Transfer Agent, nor the Advisor will be liable for any such delays or malfunctions or unauthorized interception or access to communications or account information. In addition, neither the Fund, Transfer Agent, nor the Advisor will be liable for any loss, liability cost or expense for following instructions communicated through the Internet, including fraudulent or unauthorized instructions.

Redemptions “In-Kind”

The Fund reserves the right to redeem in-kind, which means that the Fund may deliver portfolio securities to satisfy a redemption request. The Fund has elected to be governed by Rule 18f-1 of the 1940 Act. As a result of this election, the Fund will pay all redemptions up to the lesser of \$250,000 or 1.00% of the Fund’s assets in cash that are requested by a shareholder during any 90-day period.

You should understand that you will incur brokerage and other costs in connection with the subsequent sale of any portfolio security that you receive in connection with a redemption request. You should also understand that, as a result of subsequent market volatility, the net proceeds from the ultimate sale of any securities that you receive upon a redemption may vary, either positively or negatively, and perhaps significantly, from the redemption value of your Fund shares. More information on redemption in-kind is available in the SAI.

Retirement Distributions

A request for distribution from an IRA or other retirement account may be delayed by the Fund pending proper documentation. If a shareholder does not want tax withholding from distributions, the shareholder may state in the written distribution request that no withholding is desired and that the shareholder understands that there may be a liability for income tax on the distribution, including penalties for failure to pay estimated taxes. Redemption requests failing to indicate an election not to have tax withheld will be subject to 10% withholding.

Account Minimum

The Fund requires that a shareholder maintain a minimum of \$1,000 in an account to keep the account open. The Fund may, upon 30 days’ prior written notice to a shareholder, redeem shares in any account other than a retirement account if the account has an asset value less than \$1,000 due to redemption.

Responsibility for Fraud

The Fund will not be responsible for any account losses due to fraud, so long as the Fund reasonably believes that the person transacting on an account is authorized to do so. Please protect your account information and keep it private. Contact the Fund immediately about any transactions you believe to be unauthorized.

Policies Addressing Frequent Trading in Fund Shares

The Board has adopted policies and procedures with respect to frequent purchases and redemptions of Fund shares by the Fund’s shareholders. These policies and procedures take into account the historic volatility of the Fund’s NAV, the Fund’s ability

to invest at least a portion of its assets in illiquid securities, and the Fund's limitations on exchange privileges. The Board may amend the policies and procedures without prior notice to shareholders.

Certain types of transactions generally do not raise frequent trading concerns and normally will not require application of the Fund's policies and procedures with respect to frequent purchases and redemptions of Fund shares. These transactions include, but are not limited to, reinvestment of distributions, automatic investment or withdrawal plans, transactions initiated by a plan sponsor and certain transfers of shares.

In consultation with the Fund's Chief Compliance Officer, the Fund monitors shareholder accounts, including omnibus accounts, on a systematic basis by employing parameters to observe the intervals between and size of a shareholder's purchases and redemptions. Though the monitoring methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund will consider imposition of shareholder account restrictions when frequent shareholder transactions are made that may be judged to be counter to the interests of all the Fund's shareholders. The Fund may take action to impose account restrictions even if historically applied parameters are not met.

Omnibus account arrangements are common forms of holding shares of the Fund, particularly among certain financial intermediaries, such as brokers. These arrangements often permit the financial intermediary to aggregate their clients' transactions and ownership positions. In these circumstances, the identity of the shareholders is not known to the Fund. With respect to the omnibus accounts, the Fund will rely on reports provided by the financial intermediary. In addition, the Fund has entered into agreements with the intermediaries that will require an intermediary to provide the Fund with information, upon the Fund's request, about shareholders' identities and their transactions in Fund shares. These agreements also require a financial intermediary to execute instructions from the Fund to restrict or prohibit further purchases of Fund shares by any shareholder identified by the Fund. The Fund may accept undertakings from intermediaries to enforce frequent trading policy limitations on behalf of the Fund. There is no assurance that the Fund or its agents will gain access to any or all information necessary to detect frequent purchases and sales in omnibus accounts.

While the Fund systematically seeks to take actions (directly and with the assistance of financial intermediaries) that will detect and monitor frequent purchases and sales, the Fund does not represent that all or any such trading activity will necessarily be restricted or minimized. Transactions placed in violation of the Fund's policies are not necessarily deemed accepted by the Fund and may be canceled or revoked by the Fund following receipt by the Fund.

DIVIDENDS AND DISTRIBUTIONS

The Fund expects to declare and pay income dividends annually, generally in December, representing substantially all of the net investment income of the Fund. Capital gains, if any, may be distributed annually by the Fund, also generally in December. The amount of the Fund's distributions will vary and there is no guarantee the Fund will pay dividends.

To receive a distribution, you must be a shareholder of the Fund on the record date. The record dates for the Fund's distributions will vary. Please keep in mind that if you invest in the Fund shortly before the record date of a distribution, any distribution will lower the value of the Fund's shares by the amount of the distribution and the amount of the distribution may be taxable.

Distributions may be taken in cash or in additional shares at NAV. Dividends and capital gain distributions will be automatically reinvested in additional shares of the Fund unless a shareholder has elected, by written notice to the Fund, or by telephone, to receive dividends and/or capital gain distributions in cash. Please note, cash dividends received by IRA account holders may be treated as pre-mature distributions subject to penalties, in addition to income tax. Any changes to the distribution option should be submitted at least 5 days in advance of the payment date for the distribution.

If you elect to receive dividends and/or capital gain distributions in cash, and the U.S. Postal Service cannot deliver the check, or if a check remains outstanding for six months, the Fund reserves the right to reinvest the distribution in your account, at the current NAV for the Fund, and to reinvest all subsequent distributions.

TAX CONSEQUENCES OF AN INVESTMENT

Generally, distributions from the net investment income of the Fund and short-term capital gains are treated as dividends for tax purposes, and long-term capital gain distributions are treated as long-term capital gains, regardless of how long shares have been held. Distributions from the Fund are taxable when paid, whether a shareholder takes them in cash or reinvests them in additional shares, except that distributions declared in December and paid in January are taxable as if paid on December 31. Each January, the Fund or your custodian broker will mail a statement that shows the tax status of the distributions you received for the previous year.

Current tax law generally provides for a maximum tax rate for taxpayers which are individuals, trusts or estates, of 20% on long-term capital gains and from certain qualifying dividends. These rates do not apply to corporate taxpayers.

The following are guidelines for how certain distributions by the Fund are generally taxed to taxpayers which are individuals, trusts or estates:

- Distributions of net long-term capital gain by the Fund are taxable as long-term capital gains, regardless of how long a shareholder has held shares in the Fund.

- Some or all of the distributions from the Fund may be treated as “qualified dividend income,” taxable to individuals, trusts and estates at the same preferential tax rates as long-term capital gains, provided that both the Fund and the individual satisfy certain holding period and other requirements. A distribution from the Fund will be treated as qualified dividend income to the extent that it is comprised of dividend income received by the Fund from taxable domestic corporations and certain qualified foreign corporations, and provided that the Fund meets certain holding period and other requirements with respect to the security paying the dividend. In addition, the individual, trust or estate must meet certain holding period requirements with respect to the shares of the Fund in order to take advantage of these preferential tax rates.
- To the extent distributions from the Fund are attributable to other sources, such as taxable interest or short-term capital gains, dividends paid by the Fund will not be eligible for the lower rates.

Taxation Upon Sale of Shares

The redemption of shares of the Fund is a taxable event, and a shareholder may realize a capital gain or a capital loss. The Fund or your custodian broker will report to redeeming shareholders the proceeds of their sales. The individual tax rate on any gain from the sale of your shares depends on how long you have held your shares.

Fund distributions and gains from the sale of Fund shares will generally be subject to state and local income taxes. Non-U.S. investors may be subject to U.S. withholding taxes. You should consult your own tax adviser concerning the tax consequences of an investment in the Fund.

Backup Withholding

By law, some Fund shareholders may be subject to tax withholding on reportable dividends, capital gains distributions and redemption proceeds. Generally, shareholders subject to this “backup withholding” will be those for whom a taxpayer identification number is not on file with the Fund; or who, to the Fund’s knowledge, have furnished an incorrect number; or from whom the Internal Revenue Service (“IRS”) has instructed the Fund to withhold tax. In order to avoid this withholding requirement, you must certify on the Account Application that the taxpayer identification number provided is correct and that the investment is not otherwise subject to backup withholding, or is exempt from backup withholding.

Medicare Tax

A 3.8% Medicare tax will be imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the Fund and net gains from redemptions or other taxable dispositions of Fund shares) of U.S. individuals, estates and trusts to the extent that such person’s “modified adjusted gross income” (in the case of an individual) or “adjusted gross income” (in the case of an estate or trust)

exceeds a threshold amount. This Medicare tax, if applicable, is reported by you on, and paid with, your U.S. federal income tax return. Net investment income does not include exempt-interest dividends.

Other Reporting and Withholding Requirements

The Foreign Account Tax Compliance Act (“FATCA”) requires the reporting to the IRS of certain direct and indirect ownership of foreign financial accounts by U.S. persons. Failure to provide this required information can result in a generally nonrefundable 30% tax on income dividends paid by the Fund to certain “foreign financial institutions” and “non-financial foreign entities.”

Cost-Basis Reporting

U.S. federal law requires that mutual fund companies report their shareholders’ cost basis, gain/loss, and holding period to the IRS on the shareholders’ Consolidated Form 1099s when “covered” shares of the mutual funds are sold. Covered shares are any fund and/or dividend reinvestment plan shares acquired on or after January 1, 2012.

The Fund has chosen first-in, first-out (“FIFO”) as its standing (default) tax lot identification method for all shareholders, which means this is the method the Fund will use to determine which specific shares are deemed to be sold when there are multiple purchases on different dates at differing NAVs, and the entire position is not sold at one time. You may choose a method other than the Fund’s standing method at the time of your purchase or upon the sale of covered shares. The cost basis method a shareholder elects may not be changed with respect to a redemption of shares after the settlement date of the redemption. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how the new cost basis reporting rules apply to them.

This summary is not intended to be and should not be construed to be legal or tax advice to any current holder of the shares of the Fund. Shareholders should consult their own tax advisors to determine the tax consequences of owning Fund shares.

SHAREHOLDER ACCOUNTS AND SERVICES

Account Information

The Fund will establish an account for each shareholder purchasing shares directly from the Fund, and send written confirmation of the initial purchase of shares and any subsequent transactions. When there is any transaction in the shareholder account, such as a purchase, redemption, change of address, reinvestment of dividends and distributions, or withdrawal of share certificates, a confirmation statement will be sent to the shareholder giving complete details of the transaction.

Annual Statements

The Fund will send an annual account statement to each shareholder showing the distributions paid during the year and a summary of any other transactions.

The Fund will also provide year-end tax information mailed to the shareholder by the applicable IRS deadline, a copy of which will also be filed with the IRS.

Fund Reports

Shareholders will be notified when the financial statements of the Fund are made available on the Fund's website at www.aegisfunds.com. Shareholders will be notified when the Fund's annual/semi-annual reports with a summary of portfolio composition and performance of the Fund, along with the management's letter to shareholders are made available on the Fund's website at www.aegisfunds.com. The Fund's filings on Form N-CSR, which are filed with the SEC and are available from the Fund at no charge upon request, contain additional information on the Fund, including the Fund's annual and semi-annual financial statements and a discussion regarding the basis for the Board's approval of the Funds' investment advisory agreement.

Householding

Many shareholders have family members living in the same home who also own Fund shares. In order to control costs associated with mailings on behalf of the Fund, the Fund will, until notified otherwise, send only one copy of each Prospectus, proxy statement and certain other shareholder documents, as applicable, to each household address that it has on record for you and your family members living in the same home.

This process, known as "householding," does not apply to account statements, confirmations or personal tax information. If you do not wish to participate in householding, or wish to discontinue householding at any time, call 1-800-528-3780. The Fund will resume separate mailings to you within 30 days of your request.

Automatic Reinvestment

Unless the shareholder elects to receive cash distributions, dividends and capital gains distributions will automatically be reinvested without charge in additional shares of the Fund. Such distributions will be reinvested at the NAV determined on the dividend or distribution payment date in full and fractional shares rounded to the third decimal place.

Fund Website

The Fund maintains a website for current and prospective investors which contains information about the Fund and its history. The Fund's website address is www.aegisfunds.com. The website allows investors to download the Fund's documents, view the daily NAV and performance history and contact the Fund via e-mail, and provides links to other websites for additional information.

Lost Shareholders, Inactive Accounts and Unclaimed Property

It is important that the Fund maintains a correct address for each shareholder. An incorrect address may cause a shareholder's account statements and other mailings to be returned to the Fund. Based upon statutory requirements for returned mail, the Fund will attempt to locate the shareholder or rightful owner of the account. If the Fund is unable to locate the shareholder, then it will determine whether the shareholder's account can legally be considered abandoned. Your mutual fund account may be transferred to the state government of your state of residence if no activity occurs within your account during the "inactivity period" specified in your state's abandoned property laws. The Fund is legally obligated to escheat (or transfer) abandoned property to the appropriate state's unclaimed property administrator in accordance with statutory requirements. The shareholder's last known address of record determines which state has jurisdiction. Please proactively contact the Transfer Agent toll-free at 1-800-528-3780 at least annually to ensure your account remains in active status.

If you are a resident of the state of Texas, you may designate a representative to receive notifications that, due to inactivity, your mutual fund account assets may be delivered to the Texas Comptroller. Please contact the Transfer Agent if you wish to complete a Texas Designation of Representative form.

INDEX DESCRIPTION

S&P SmallCap 600 Pure Value Index

An index that seeks to measure stocks that exhibit strong value characteristics, and weights them by score. Constituents are drawn from the S&P SmallCap 600 Index, a market capitalization weighted index that seeks to measure the small-cap segment of the U.S. equity market. One cannot invest directly in the index, nor is the index representative of the Fund's portfolio.

S&P 500 Total Return Index

An Index is an unmanaged market capitalization-weighted index which is comprised of the largest U.S. domiciled companies and includes the reinvestment of all dividends. Investors cannot directly invest in an index.

FINANCIAL HIGHLIGHTS

The financial highlights table is intended to help you understand the financial performance of the Fund for the past 5 years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund, assuming reinvestment of all dividends and distributions. The information for the fiscal year ended December 31, 2024 has been derived from the financial statements audited by the Cohen & Company, Ltd., an independent registered public accounting firm. All information prior to 2023 was audited by the Fund's previous independent registered public accounting firm. Cohen & Company, Ltd is the Fund's current independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's Form N-CSR for its most recent fiscal year, which was filed with the SEC and is available without charge upon request.

The table below sets forth financial data for a share outstanding in Class I throughout each year:

Aegis Value Fund - Class I

	Years Ended December 31,				
	2024	2023	2022	2021	2020
Per Share Data:					
Net asset value, beginning of year	\$ 35.35	\$ 31.97	\$ 28.98	\$ 21.05	\$ 18.94
INCOME FROM INVESTMENT OPERATIONS:					
Net investment income (loss) ⁽¹⁾	0.36	0.25	0.07	0.07	(0.15)
Net realized and unrealized gain (loss) on investments	3.06	3.92	2.97	7.86	3.65
Total from investment operations	3.42	4.17	3.04	7.93	3.50
Less distributions to shareholders from:					
Net investment income	(0.37)	(0.23)	(0.05)	—	(0.44)
Net realized capital gains . .	(2.54)	(0.56)	—	—	(0.95)
Total distributions	(2.91)	(0.79)	(0.05)	—	(1.39)
Net asset value, end of year . .	<u>\$ 35.86</u>	<u>\$ 35.35</u>	<u>\$ 31.97</u>	<u>\$ 28.98</u>	<u>\$ 21.05</u>
Total investment return	9.43%	13.13%	10.50%	37.67%	18.72%
Ratios (to average net assets)/ Supplemental data:					
Expenses after waiver/ recovery	1.45%	1.46%	1.50%	1.50%	1.50%
Expenses before waiver/ recovery	1.45%	1.43%	1.45%	1.48%	1.55%
Net investment income (loss)	0.97%	0.75%	0.23%	0.25%	(0.86)%
Portfolio turnover	9%	2%	20%	40%	41%
Net assets at end of year (000's)	\$331,613	\$371,193	\$274,310	\$179,564	\$123,550

(1) Per share net investment income (loss) was calculated prior to tax adjustments, using average shares method.
